SHORE EXCURSIONS

OSA-A / Introduction to Osaka

Difficulty

Price: \$149 - Duration: 5.00 hr(s)

Explore Osaka's feudal and religious past during this picturesque, half-day sightseeing excursion.

Osaka, Osaka Castle, Weapons, Armour, Artefacts, Panoramic Viewpoint

Depart the pier for the scenic, approximate 50-minute drive to the Osaka Castle. Built in the late-16th century, the castle was burned down in a series of 17th-century battles. It was later reconstructed, but its donjon was destroyed by fire once again. The castle's final reconstruction took place in the early-20th century. Upon arrival, take a guided walking tour. The first seven floors of the castle display various weapons, armour, and artefacts of a bygone era. The eighth-floor features splendid panoramic vistas and photo opportunities of the castle's surrounds. Leaving Osaka Castle, re-board your coach for the drive to Sumiyoshi-ku and a visit to the Sumiyoshi Taisha Shrine.

Sumiyoshi Taisha Shrine, Four Sanctuaries, 600 Stone Garden Lanterns, Red, Arched Bridge

Built in the 3rd century, the shrine is beloved by the people of Osaka as the guardian deity for sailors and a deity to bring prosperity. It also serves as the headquarters of over 2,000 Sumiyoshi Taisha Shrines throughout Japan. Some three-million people visit this shrine at the beginning of each New Year. The shrine is home to the first-fourth sanctuaries. Each sanctuary is built in the Sumiyoshi-Zukuri style with straight roofs, the oldest Shrine architecture style, and all are designated as National Treasures. In the precincts surrounded by woods, over 600 stone garden lanterns stand in a row and a red, arched bridge spans over the pond. Following your visit, re-board your coach for the approximate 30-minute drive back to the pier.

Please note: This tour involves an extensive amount of walking for approximately two miles (about 3.2 kilometres), at times over uneven, cobblestone, and natural surfaces and inclines, with a few steps to negotiate to get on/off the coach, 40 steps at the entrance to the Osaka Castle, and 190 steps to access the top floor. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. Guests are advised to wear lightweight, comfortable clothing with flat, closed-toe walking shoes, and bring sun protection, a sweater or light jacket, bottled water, and Japanese Yen or credit cards for purchases from the ship. Although credit cards are mostly accepted, Japanese Yen is required for any purchases; guests are advised to exchange money at the airport prior to the cruise. Proper attire is required to enter temples and shrines; shorts and bare shoulders are not permitted. Guests must be at least 12 years old to participate on this tour; minors must be accompanied by a parent or guardian over 18 years old. Guests must be at least 20 years old to be served alcoholic beverages. Infrastructure in Osaka may be basic, and local conditions may be challenging; coaches, guides, hotels, restaurants, equipment, and services are the best-available in the area, but may not be up to the standards of those found on other ports. Therefore, we urge flexibility and understanding as we visit unique, less-touristic destinations. The cost of providing a tour programme in this area is proportionately more expensive than in neighbouring regions, as vehicles and guides are brought in from the whole region. This may be reflected in the prices of the tours, and we thank you for your understanding. Operation of this tour is subject to weather conditions. Photography/videography is not permitted on the third and fourth floors of the Osaka Castle. The tour sequence may vary. Space on this tour is very limited; we suggest you book in advance to avoid disappointment.

OSA-B / Kyoto Highlights & High-Speed Shinkansen Train

Difficulty

Price: \$369 - Duration: 8.50 hr(s)

Experience Kyoto on the fast track during a panoramic, full-day sightseeing excursion to this historic city via bullet train.

Osaka, Bullet Train to Kyoto, Golden Pavilion

Depart the pier for the scenic, approximately 45-minute drive to the Shin-Osaka Station. Upon arrival, board the high-speed Shinkansen bullet train for the short ride to Kyoto. Upon arrival at the Kyoto Station, board a coach and transfer to the Kinkaku-ji Temple (Golden Pavilion) for an exterior visit. Built as a villa during the Muromachi Period in 1397, this UNESCO World Heritage Site was later converted into a temple. The temple burned down in 1950 and was rebuilt in 1955. It is approximately 41 feet (about 12.5 metres) in height, and the second-and-third storeys are covered with approximately two tons (about 1.8 metric tons) of pure gold foil. The mirror reflection on the still pond in the garden is a marvellous site to behold.

Nijo Castle, Cultural Treasures, Chinese Gate, Ni-no-maru Garden, Pictures on Doors

Next, re-board your coach and head to the Nijo Castle, built in 1626 as the residence of Shogun Tokugawa Ieyasu. The Honmaru (Main Court) burned down in 1788. The only original part remaining is the Ni-no-maru (Second Court). The present 'Honmaru', built in 1827, is a replica of the one that originally stood on the grounds of the Kyoto Imperial Palace. The castle, an UNESCO World Heritage Site, is also renowned for its many cultural treasures dating from the 16th-century Momoyama Era, including the Karamon (Chinese Gate), Ni-no-maru Garden, and pictures on the doors of the building.

Shozan Resort Kyoto, Japanese Lunch, Heian Jingu Shrine

Leaving Nijo Castle, re-board your coach and proceed for a Japanese, set-menu lunch at the Shozan Resort Kyoto. After lunch, re-board your coach and transfer to the Heian Shrine (Shrine of Peace), built in 1895 to commemorate the 1,100th anniversary of the founding of Kyoto (Heian-Kyo capital). The Heian Shrine is dedicated to two emperors: Emperor Kammu, the first emperor to rule Kyoto, and Emperor Komei, the last emperor to live out his reign in the city.

Afterward, re-board your coach and commence the approximately 1.5-hour drive back to the pier. A comfort stop is made en route.

Please note: This tour involves an extensive amount of walking for approximately 1.5 miles (about 2.4 kilometres), at times over uneven, cobblestone, and natural surfaces and inclines, with a few steps to negotiate to get on/off the coach and board/de-board the bullet-train, and 40 steps at the Nijo Castle and Heian Jingu Shrine. This tour is not suitable for guests prone to motion sickness, guests with limited mobility and guests who utilise a wheelchair. Guests are advised to wear lightweight, comfortable clothing with flat, closed-toe walking shoes, and bring sun protection, a sweater or light jacket, bottled water, and Japanese Yen or credit cards for purchases from the ship. Although credit cards are mostly accepted, Japanese Yen is required for any purchases; guests are advised to exchange money at the airport prior to the cruise. Proper attire is required to enter temples and shrines; shorts and bare shoulders are not permitted. Guests must remove their shoes before entering the Ninomaru Palace at the Nijo Castle. Guests must be at least 12 years old to participate on this tour; minors must be accompanied by a parent or guardian over 18 years old. Guests must be at least 20 years old to be served alcoholic beverages. Infrastructure in Osaka may be basic, and local conditions may be challenging; coaches, guides, hotels, restaurants, equipment, and services are the best-available in the area, but may not be up to the standards of those found on other ports. Therefore, we urge flexibility and understanding as we visit unique, less-touristic destinations. The cost of providing a tour programme in this area is proportionately more expensive than in neighbouring regions, as vehicles and guides are brought in from the whole region. This may be reflected in the prices of the tours, and we thank you for your understanding. Operation of this tour is subject to weather conditions. The driving time between the pier and sites visited is approximately 45 minutes-1.5 hours in each direction. Photography/videography is not permitted inside the Ninomaru Palace at the Nijo Castle. The tour sequence may vary.

Due to ongoing repair-and-restoration projects on the Nijo Castle grounds, some of the buildings may be covered.

OSA-G / Kyoto Arashiyama Bamboo Forest & Rickshaw Ride

Difficulty

Price: \$399 - Duration: 9.00 hr(s)

Explore the revered landmarks of Kyoto in a unique new way during this bespoke, full-day sightseeing excursion with lunch.

Osaka, Tenryu-ji Temple

Depart the pier for the scenic, approximately 1.5-hour drive to Arashiyama. Upon arrival, your first stop is at Tenryu-ji, the head temple of the Tenryu branch of Rinzai Zen Buddhism. The temple was founded by Ashikaga Takauji in 1339, primarily to venerate Gautama Buddha, and its first chief priest was Muso Soseki. Construction was completed in 1345. Due to its connection to both the Ashikaga family and Emperor Go-Daigo, the Tenryu-ji Temple is held in extremely high esteem, and ranked number one among Kyoto's so-called 'Five Mountains'. In 1994, it was designated an UNESCO World Heritage Site as part of the 'Historic Monuments of Ancient Kyoto'. Leaving the temple, re-board your coach and head to the Bamboo Forest.

Arashiyama, Rickshaw Ride, Bamboo Forest, Free Time, Shopping, Moon Crossing Bridge, Lunch

Despite being one of the city's top attractions, the mystical bamboo path at Arashiyama is a great change-of-pace for your day in Kyoto. Upon arrival, take a leisurely, approximately 30-minute rickshaw ride through the Bamboo Forest. Some free time is made available to browse for souvenirs of your visit amongst the local vendors and explore the Arashiyama area at your leisure. See the Togetsukyo Bridge (Moon Crossing Bridge), Arashiyama's most iconic landmark. Originally built during the Heian Period (794 -1185), the bridge was most-recently reconstructed in the 1930s and looks particularly attractive in the foreground of the forested mountainside. Next, re-board your coach and proceed for a Japanese lunch at a local restaurant.

Golden Pavilion

After lunch, re-board your coach and head for an exterior visit at the Kinkaku-ji Temple (Golden Pavilion). Built as a villa during the Muromachi Period in 1397, this UNESCO World Heritage Site was later converted into a temple. The temple burned down in 1950 and was rebuilt in 1955. The mirror reflection on the still pond in the garden is a marvellous site to behold. At the conclusion of your tour, re-board your coach and commence the approximately two-hour drive back to the pier.

Please note: This tour involves an extensive amount of walking for approximately 1.86 miles (about three kilometres), at times over uneven, cobblestone, and natural surfaces, with a few steps to negotiate to get on/off the coach and rickshaw, and at the sites visited. Walking at the Arashiyama area is at the discretion of each guest. This tour is not suitable for guests prone to motion sickness, guests with limited mobility, and guests who utilise a wheelchair. Guests are advised to wear lightweight, comfortable clothing with flat, closed-toe walking shoes, and bring sun protection, a sweater or light jacket, bottled water, and Japanese Yen or credit cards for purchases from the ship. Although credit cards are mostly accepted, Japanese Yen is required for any purchases; guests are advised to exchange money at the airport prior to the cruise. OSA-L / Geisha Performance with Local Dinner

Difficulty

Price: \$499 - Duration: 5.50 hr(s)

Savour a unique opportunity to experience an authentic Geisha performance with dinner during this unforgettable, half-day Geisha excursion.

Kyoto, Japanese Dinner with Geisha Performance

Depart the pier for the scenic, approximately 1 hour - 45 minutes drive to the dinner venue. Upon arrival, you are seated for a Japanese Kaiseki Style dinner. During dinner, you are treated to an authentic Geisha performance, a rare treat even for the Japanese people due to its limited public access and a traditional business custom prohibiting first-time visitors from making reservations. In honour of your visit tonight, you have been granted special access to this unique occasion.

About the Geisha Performance

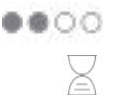

Geishas are professional entertainers who attend to guests during meals and other occasions, and have been wearing kimonos since the Edo Period (1603-1867). They are regarded as 'traditional and iconic Japanese women' who have learned graceful behaviour, traditional customs, and various Japanese arts such as dancing and playing musical instruments. The role of the Geisha is to make guests feel at ease with conversation, using special dialects, drinking games, and dance performances. At the conclusion of this special occasion, re-board your coach and commence the approximately 75-minute drive back to the pier.

Please note: This tour involves a moderate amount of walking for approximately 219 yards (about 200 metres), at times over uneven surfaces, with a few steps to negotiate to get on/off the coach and 10 steps at the restaurant. This tour is suitable for guests with limited mobility, but is not wheelchair-accessible. Guests are advised to wear smart-casual, comfortable clothing with flat, closed-toe walking shoes, and bring sun protection, a sweater or light jacket, bottled water, and Japanese Yen or credit cards for purchases from the ship. Although credit cards are mostly accepted, Japanese Yen is required for any purchases; guests are advised to exchange money at the airport prior to the cruise. Proper attire is required to enter temples and shrines; shorts and bare shoulders are not permitted. Guests must be at least 12 years old to participate on this tour; minors must be accompanied by a parent or guardian over 18 years old. Guests must be at least 20 years old to be served alcoholic beverages. Infrastructure in Osaka may be basic, and local conditions may be challenging; coaches, guides, hotels, restaurants, equipment, and services are the best-available in the area, but may not be up to the standards of those found on other ports. Therefore, we urge flexibility and understanding as we visit unique, less-touristic destinations. The cost of providing a tour programme in this area is proportionately more expensive than in neighbouring regions, as vehicles and guides are brought in from the whole region. This may be reflected in the prices of the tours, and we thank you for your understanding. Additional beverages are available at the restaurant at each guest's own expense. This tour is available in the evening only. The driving time between the pier and sites visited is approximately 1 hour - 45 minutes in each direction. The tour sequence may vary. Space on this tour is very limited; we suggest you book in advance to avoid disappointment.

Difficulty

Price: \$2099 - Duration: 9.50 hr(s)

Explore the iconic UNESCO World Heritage Sites and important cultural properties of Kyoto during this panoramic, full-day, Silver Shore Privato sightseeing tour via private van.

Osaka, Kyoto

Depart the pier with your driver and guide in a private, air-conditioned van and begin your Silver Shore Privato tour with a scenic, approximately two-hour drive to historic Kyoto. Once the ancient capital of Japan, Kyoto is a sophisticated city on the island of Honshu with thousands of classical Buddhist temples. It is also home to many gardens, Shinto shrines, palaces, and traditional wooden houses, a number of which have been designated as UNESCO World Heritage Sites.

Heian Jingu Shrine

Upon arrival in Kyoto, explore the city and its surrounds at your own pace. Your first stop is at the Heian Jingu Shrine (Shrine of Peace). Designated an Important Cultural Property of Japan, it was built in 1895 to commemorate the 1,100th anniversary of the founding of Kyoto (Heian-Kyo capital). The Heian Shrine is dedicated to two emperors: Emperor Kammu, the first emperor to rule Kyoto, and Emperor Komei, the last emperor to live out his reign in the city. Following your visit, re-board your van and head to the Nijo Castle.

Nijo Castle, Chinese Gate, Ninomaru Palace & Garden

The Nijo Castle is a fortification of cypress wood built in 1603 as the residence of Shogun Tokugawa Ieyasu. The Hon-maru (Main Court) burned down in 1788. The only original part remaining is the Ninomaru (Second Court). The present 'Hon-maru', built in 1827, is a replica of the one that originally stood on the grounds of the Kyoto Imperial Palace. The castle, an UNESCO World Heritage Site, is protected by a moat, stone walls, and ingenious nightingale floors, which chirp like a bird when walked upon to alert the guards of potential intruders. It is also renowned for its many cultural treasures dating from the 16th-century Momoyama Era, including the Karamon (Chinese Gate) and Ninomaru Palace & Garden.

Local Restaurant, Japanese Lunch, Golden Pavilion

After a stop for a Japanese, set-menu lunch at a local restaurant, transfer to the Kinkaku-ji Temple (Golden Pavilion) for an exterior visit. Built as a villa during the Muromachi Period in 1397, this UNESCO World Heritage Site was later converted into a temple. The temple burned down in 1950 and was rebuilt in 1955. It is approximately 41 feet (about 12.5 metres) in height, and the second-and-third storeys are covered with approximately two tons (about 1.8 metric tons) of pure gold foil. The mirror reflection on the still pond in the garden is a marvellous site to behold. At the conclusion of your Silver Shore Privato excursion, re-board your private van and commence the approximately two-hour drive back to the pier.

Please note: This Silver Shore Privato tour involves an extensive amount of walking for approximately 1.24 miles (about two kilometres), at times over uneven and cobblestone surfaces, with a few steps to negotiate to get on/off the van, 10 steps at the Heian Jingu Shrine, 20 steps at the Nijo Castle, and 50 steps at the Golden Pavilion. This tour is not suitable for guests prone to motion sickness, guests with limited mobility, and guests who utilise a wheelchair. Guests are advised to wear lightweight, comfortable clothing with flat, closed-toe walking shoes, and bring sun protection, a sweater or light jacket, bottled water, and Japanese Yen or credit cards for purchases from the ship. Although credit cards are mostly accepted, Japanese Yen is required for any purchases; guests are advised to exchange money at the airport prior to the cruise. Difficulty

Price: \$149 - Duration: 5.00 hr(s)

Explore Osaka's feudal and religious past during this picturesque, half-day sightseeing excursion.

Osaka, Osaka Castle, Weapons, Armour, Artefacts, Panoramic Viewpoint

Depart the pier for the scenic, approximate 50-minute drive to the Osaka Castle. Built in the late-16th century, the castle was burned down in a series of 17th-century battles. It was later reconstructed, but its donjon was destroyed by fire once again. The castle's final reconstruction took place in the early-20th century. Upon arrival, take a guided walking tour. The first seven floors of the castle display various weapons, armour, and artefacts of a bygone era. The eighth-floor features splendid panoramic vistas and photo opportunities of the castle's surrounds. Leaving Osaka Castle, re-board your coach for the drive to Sumiyoshi-ku and a visit to the Sumiyoshi Taisha Shrine.

Sumiyoshi Taisha Shrine, Four Sanctuaries, 600 Stone Garden Lanterns, Red, Arched Bridge

Built in the 3rd century, the shrine is beloved by the people of Osaka as the guardian deity for sailors and a deity to bring prosperity. It also serves as the headquarters of over 2,000 Sumiyoshi Taisha Shrines throughout Japan. Some three-million people visit this shrine at the beginning of each New Year. The shrine is home to the first-fourth sanctuaries. Each sanctuary is built in the Sumiyoshi-Zukuri style with straight roofs, the oldest Shrine architecture style, and all are designated as National Treasures. In the precincts surrounded by woods, over 600 stone garden lanterns stand in a row and a red, arched bridge spans over the pond. Following your visit, re-board your coach for the approximate 30-minute drive back to the pier.

Please note: This tour involves an extensive amount of walking for approximately two miles (about 3.2 kilometres), at times over uneven, cobblestone, and natural surfaces and inclines, with a few steps to negotiate to get on/off the coach, 40 steps at the entrance to the Osaka Castle, and 190 steps to access the top floor. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. OSA-G / Kyoto Arashiyama Bamboo Forest & Rickshaw Ride

Difficulty

Price: \$399 - Duration: 9.00 hr(s)

Explore the revered landmarks of Kyoto in a unique new way during this bespoke, full-day sightseeing excursion with lunch.

Osaka, Tenryu-ji Temple

Depart the pier for the scenic, approximately 1.5-hour drive to Arashiyama. Upon arrival, your first stop is at Tenryu-ji, the head temple of the Tenryu branch of Rinzai Zen Buddhism. The temple was founded by Ashikaga Takauji in 1339, primarily to venerate Gautama Buddha, and its first chief priest was Muso Soseki. Construction was completed in 1345. Due to its connection to both the Ashikaga family and Emperor Go-Daigo, the Tenryu-ji Temple is held in extremely high esteem, and ranked number one among Kyoto's so-called 'Five Mountains'. In 1994, it was designated an UNESCO World Heritage Site as part of the 'Historic Monuments of Ancient Kyoto'. Leaving the temple, re-board your coach and head to the Bamboo Forest.

Arashiyama, Rickshaw Ride, Bamboo Forest, Free Time, Shopping, Moon Crossing Bridge, Lunch

Despite being one of the city's top attractions, the mystical bamboo path at Arashiyama is a great change-of-pace for your day in Kyoto. Upon arrival, take a leisurely, approximately 30-minute rickshaw ride through the Bamboo Forest. Some free time is made available to browse for souvenirs of your visit amongst the local vendors and explore the Arashiyama area at your leisure. See the Togetsukyo Bridge (Moon Crossing Bridge), Arashiyama's most iconic landmark. Originally built during the Heian Period (794 -1185), the bridge was most-recently reconstructed in the 1930s and looks particularly attractive in the foreground of the forested mountainside. Next, re-board your coach and proceed for a Japanese lunch at a local restaurant.

Golden Pavilion

After lunch, re-board your coach and head for an exterior visit at the Kinkaku-ji Temple (Golden Pavilion). Built as a villa during the Muromachi Period in 1397, this UNESCO World Heritage Site was later converted into a temple. The temple burned down in 1950 and was rebuilt in 1955. It is approximately 41 feet (about 12.5 metres) in height, and the second-and-third storeys are covered with approximately two tons (about 1.8 metric tons) of pure gold foil. OSA-H / Teppanyaki Demo & Dinner

Difficulty

Price: \$399 - Duration: 3.50 hr(s)

Embrace the exquisite flavours of an authentic, Teppanyaki-style dinner during this savoury, half-day epicurean excursion and city tour.

Teppanyaki-Style Restaurant & Dinner

Depart the pier for the scenic, approximately 30-minute drive to a Teppanyaki restaurant. Teppanyaki is a style of Japanese cuisine in which an iron griddle is utilised to cook food. The word 'Teppanyaki' is derived from 'teppan', which means iron plate, and 'yaki,' which means grilled, broiled, or pan-fried. On this tour, the chef cooks meats and vegetables for you and right in front of you. Upon arrival, you are welcomed and seated for your Teppanyaki-style meal, where the food is freshly-prepared in your presence and served on heated iron plates. After this delightful repast, re-board your coach for a short sightseeing tour of Osaka.

Tsutenkaku Tower, Panoramic Views, Osaka City, Awaji Island, Rokko and Ikoma Mountains

From your coach see the famous Tsutenkaku Tower, built in 1912 and modelled after the Eiffel Tower of Paris. At the time of its construction, the approximately 210-foot-high (about 64-metre-high) Tsutenkaku Tower was the tallest tower in Asia and a symbol of Osaka. Rebuilt in 1956, the present-day, approximately 338-foot-high (about 103-metre-high) Tsutenkaku Tower offers sweeping panoramic vistas over Osaka City, Awaji Island, and the Rokko and Ikoma mountain ranges. Following your visit, re-board your coach and head to the Dotonbori District, located near Osaka's city centre.

Dotonbori District

One of the symbols of Osaka and beloved by residents, Dotonbori is a dense area of restaurants and amusement spots located along the south bank of the Dotonbori Canal. Osaka is a food-lover's delight, and neon-lit Dotonbori offers hundreds of eateries. The area began as an entertainment district and still has Bunraku (puppet show) theatres, halls for Rakugo (comic story-telling) and, of course, movie theatres. The area is often featured in both domestic and foreign films, as it typifies the lively spirit of Osaka. At the conclusion of your tour, re-board your coach and commence the short drive back to the pier.

Explore the legends and local shoppes of Osaka during this bespoke, half-day sightseeing excursion.

Osaka, Katsuoji Temple, Complimentary Daruma Doll

Depart the pier for the scenic, approximately one-hour drive to the Katsuoji Temple, an historic temple founded in 727 A.D. According to legend, Katsuoji has come to be known as the 'winning temple' because its faithful came here to pray for success or victory in their endeavors. Katsuo-ji is also called the 'Winning Daruma Doll Temple'. A 'Daruma' is a round doll with no eyes. Followers purchase them, make a wish, and draw one eye on their dolls. When their wish comes true, they draw the other eye on their dolls and return them to the temple. During your visit, see hundreds of Daruma dolls lined up in a small hall. Following your visit, receive a complimentary Daruma doll, then re-board your coach and transfer to the Kuromon Market.

Kuromon Market, Diverse Shoppes, Food, Clothing, Housewares

This bustling, approximately 1,903-foot-long (about 580-metre-long) shopping street houses many as 170 shoppes selling fresh vegetables, fruit, fish, meats, traditional sweets, clothing, and housewares. Kuromon is called Osaka's 'Minami Kitchen', as perishable foods account for half of the goods on sale in the street. Due to the freshness and variety of its food, Kuromon is a beacon for profession chefs and locals, especially on Saturday when all its shoppes hold sales. Following a guided walking tour of the market, enjoy some free time for independent shopping and exploration. Afterward, re-board your coach and commence the approximately 30-minute drive back to the pier.

Osaka, Kyoto

Depart the pier with your driver and guide in a private, air-conditioned van and begin your Silver Shore Privato tour with a scenic, approximately two-hour drive to historic Kyoto. Once the ancient capital of Japan, Kyoto is a sophisticated city on the island of Honshu with thousands of classical Buddhist temples. It is also home to many gardens, Shinto shrines, palaces, and traditional wooden houses, a number of which have been designated as UNESCO World Heritage Sites.

Heian Jingu Shrine

Upon arrival in Kyoto, explore the city and its surrounds at your own pace. Your first stop is at the Heian Jingu Shrine (Shrine of Peace). Designated an Important Cultural Property of Japan, it was built in 1895 to commemorate the 1,100th anniversary of the founding of Kyoto (Heian-Kyo capital). The Heian Shrine is dedicated to two emperors: Emperor Kammu, the first emperor to rule Kyoto, and Emperor Komei, the last emperor to live out his reign in the city. Following your visit, re-board your van and head to the Nijo Castle.

Nijo Castle, Chinese Gate, Ninomaru Palace & Garden

The Nijo Castle is a fortification of cypress wood built in 1603 as the residence of Shogun Tokugawa Ieyasu. The Hon-maru (Main Court) burned down in 1788. The only original part remaining is the Ninomaru (Second Court). The present 'Hon-maru', built in 1827, is a replica of the one that originally stood on the grounds of the Kyoto Imperial Palace. The castle, an UNESCO World Heritage Site, is protected by a moat, stone walls, and ingenious nightingale floors, which chirp like a bird when walked upon to alert the guards of potential intruders. It is also renowned for its many cultural treasures dating from the 16th-century Momoyama Era, including the Karamon (Chinese Gate) and Ninomaru Palace & Garden.

Local Restaurant, Japanese Lunch, Golden Pavilion

After a stop for a Japanese, set-menu lunch at a local restaurant, transfer to the Kinkaku-ji Temple (Golden Pavilion) for an exterior visit. Built as a villa during the Muromachi Period in 1397, this UNESCO World Heritage Site was later converted into a temple. The temple burned down in 1950 and was rebuilt in 1955. It is approximately 41 feet (about 12.5 metres) in height, and the second-and-third storeys are covered with approximately two tons (about 1.8 metric tons) of pure gold foil. SHORE EXCURSIONS

HIJ-F / Peace Memorial Park & Museum

Difficulty

Price: \$109 - Duration: 3.00 hr(s)

Explore the pathos of war and impact of the nuclear bomb dropped on Hiroshima during this compelling, half-day sightseeing excursion to the Hiroshima Peace Park Memorial & Museum.

Hiroshima, Peace Memorial Park & Museum, Memorials, Monuments, Museums, Lecture Halls

Depart the pier for the scenic, approximately 30-minute drive to the Hiroshima Peace Memorial Park & Museum. The location of the park was once the busiest downtown commercial and residential district, and it was subsequently built on an open field created by the explosion. Today, Hiroshima Peace Memorial Park is home to many memorials, monuments, museums, and lecture halls, and draws over a million visitors annually. Hiroshima Peace Memorial Park is dedicated to the legacy of Hiroshima as the first city in the world to suffer from a nuclear attack at the end of World War II, on August 6, 1945. The park also honours the memories of the bomb's direct and indirect victims, which number well over 200,000 people.

Hiroshima Prefectural Industrial Promotion Hall Remains, Arched Tomb Cenotaph, Stone Chest

Upon arrival, proceed for a stop at the skeletal remains of the former Hiroshima Prefectural Industrial Promotion Hall, the only building left standing near the hypocentre of the bomb's blast. The hall's hollowed dome, appropriately named the 'Atomic Bomb Dome', was intentionally left in ruins as a stark visual reminder of the bomb's destruction. During a stop at the Arched Tomb Cenotaph, you may take a moment to remember the victims of the bomb. Each one of the 220,000 victims' names are inscribed on the stone chest beneath the arch.

Museum Visit, Displays, Personal Belongings, Compelling Photographs, Related Stories, Shopping

Your final stop is at the Museum, which consists of two buildings depicting the history of Hiroshima and day of the atomic bomb. The displays include personal belongings, compelling photographs, and stories of the sadness and aftermath of the bomb. In sharp contrast to the atrocities of war and atomic bomb, bear witness to the miraculous, decades-long recovery of Hiroshima, whose remarkable restoration is truly inspiring in its scope. Following your visit, you may opt to re-board your coach for the drive back to the pier or remain in the city for shopping and exploration at your leisure, then return to the ship on your own.

Please note: This tour involves an extensive amount of walking for approximately 1.1 miles (about 1.8 kilometres), at times over uneven, cobblestone, and natural surfaces, with a few steps to negotiate to get on/off the coach and 50-60 steps at the sites visited; a lift is available at the museum. Walking at the Peace Memorial Museum is at the discretion of each guest. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. Guests are advised to wear lightweight, comfortable clothing with flat, closed-toe walking shoes, and bring sun protection, a sweater or light jacket, bottled water, and Japanese Yen or credit cards for purchases from the ship. Although credit cards are mostly accepted, Japanese yen is required for any purchases; guests are advised to exchange money at the airport prior to the cruise. Guests must be at least 12 years old to participate on this tour; minors must be accompanied by a parent or guardian over 18 years old. Guests must be at least 20 years old to be served alcoholic beverages. Infrastructure in Hiroshima may be basic, and local conditions may be challenging; coaches, guides, hotels, restaurants, equipment, and services are the best-available in the area, but may not be up to the standards of those found on other ports. Therefore, we urge flexibility and understanding as we visit unique, less-touristic destinations. The cost of providing a tour programme in this area is proportionately more expensive than in neighbouring regions, as vehicles and guides are brought in from the whole region. This may be reflected in the prices of the tours, and we thank you for your understanding. Guests will see sensitive material, including graphic pictures and displays of atrocities of war, on display in the Peace Memorial Museum. Expect crowds and long lines at the sites visited. Operation of this tour is subject to weather conditions. The tour sequence may vary.

HIJ-G / Miyajima Island & Torii Gate

Difficulty

Price: \$129 - Duration: 4.50 hr(s)

Explore the island of Miyajima and its majestic Itsukushima Jinja Shrine, an UNESCO World Heritage Site, during this picturesque, half-day sightseeing excursion.

Hiroshima, Hiroshima Castle, Miyajima-Guchi Ferry Terminal, Ferry-Ride, Miyajima Island

Depart the pier for the scenic, approximately 45-minute drive to the Miyajima-guchi Ferry Terminal. Upon arrival, embark a ferry for the short ride to Miyajima Island. Itsukushima Jinja Shrine, Torii Gate, Boardwalks, Buildings, Prayer & Main Halls, Noh Theatre Stage

This UNESCO World Heritage Site, National Treasure, and Important Cultural Property is thought to date from the mid-16th century. Its dramatic, approximately 50-foot-tall (about 15.2-foot-tall), reddish-orange-coloured Torii Gate is distinctively built over water, giving it the illusion of 'floating' in the sea during high tide. Built on pillars, the shrine complex consists of multiple buildings, including a Prayer Hall and Main Hall, all of which are connected by boardwalks. There is also the Noh Theatre Stage, where plays that paid homage to the gods were once performed, and, surprisingly, many wild deer that can be seen walking around the island.

Free Time, Independent Shopping & Browsing, Ferry-Ride, Hiroshima

Following your tour, some free time is made available to explore the streets of the island and browse the local shops at your leisure. Afterward, return to the ferry terminal and embark your ferry for the short ride back to Hiroshima. Upon arrival, disembark the ferry, re-board your coach, and commence the approximately 45-minute drive back to the pier.

HIJ-H / Hiroshima Castle & Garden

Difficulty

Price: \$109 - Duration: 3.50 hr(s)

Experience the beauty and tranquillity of an Edo-period castle and Shukkei-en Garden during this panoramic, half-day sightseeing excursion.

Hiroshima Castle, Central Keep, Museum, Shrine, Ruins, Fortifications, Panoramic City Views

Depart the pier for the scenic, approximately 40-minute drive to the Hiroshima Castle, an imposing, feudal-era, flatlands fortress built by a powerful Samurai clan in 1589. The castle's five-story main keep was destroyed by the firestorm following the

explosion of the atomic bomb that was dropped on Hiroshima at the end of World War II. Reconstructed in 1958, its central keep is now a museum, and today houses a shrine, ruins, and a section of defensive fortifications. Your approximately 100-step ascent to the top of the castle is rewarded with panoramic views overlooking the city.

Shukkei-en Garden, Miniature Forests, Valleys & Mountain Landscapes, Garden Paths, Pond

Next, re-board your coach and transfer to the nearby Shukkei-en Garden (Shrunk Scenery Garden). As its name implies, the garden offers uniquely-beautiful images of miniature natural formations. The Shukkei-en Garden was built after the Hiroshima Castle, and dates from 1620. The charming miniature forests, valleys, and mountain landscapes are refreshing and peaceful. Upon arrival, take a leisurely stroll along winding garden paths surrounded by the central pond. At the conclusion of your visit, re-board your coach and commence the approximately 40-minute drive back to the pier via some of the residential and business districts of Hiroshima.

Please note: This tour involves an extensive amount of walking for approximately 1.86 miles (about three kilometres), at times over uneven, cobblestone, and natural surfaces, with a few steps to negotiate to get on/off the coach, several steps at the Shukkei-en Garden, and 100 steps at the Hiroshima Castle. This tour is not suitable for guests with limited mobility and guests who utilise a wheelchair. Guests are advised to wear lightweight, comfortable clothing with flat, closed-toe walking shoes, and bring sun protection, a sweater or light jacket, bottled water, and Japanese Yen or credit cards for purchases from the ship. Although credit cards are mostly accepted, Japanese yen is required for any purchases; guests are advised to exchange money at the airport prior to the cruise. Proper attire is required to enter temples and shrines; shorts and bare shoulders are not permitted. Guests must be at least 12 years old to participate on this tour; minors must be accompanied by a parent or guardian over 18 years old. Guests must be at least 20 years old to be served alcoholic beverages. Infrastructure in Hiroshima may be basic, and local conditions may be challenging; coaches, guides, hotels, restaurants, equipment, and services are the best-available in the area, but may not be up to the standards of those found on other ports. Therefore, we urge flexibility and understanding as we visit unique, less-touristic destinations. The cost of providing a tour programme in this area is proportionately more expensive than in neighbouring regions, as vehicles and guides are brought in from the whole region. This may be reflected in the prices of the tours, and we thank you for your understanding. Expect crowds and long lines at the sites visited. Operation of this tour is subject to weather conditions. The tour sequence may vary. Space on this tour is very limited; we suggest you book in advance to avoid disappointment.

Hiroshima, Kumano

Depart the pier for the scenic, approximately 45-minute drive to the town of Kumano, where approximately 80% of the brushes made in Japan are still made by hand from animal fur. Years ago, Kumano rose to prominence in the brush-making industry when it was encouraged by Hiroshima officials to produce the brushes to supplement its local farming economy. Later, Japanese calligraphy was introduced as a school subject, and the increased demand for brushes bolstered the industry in Kumano.

Fudenosato Kobo Museum, Guided Tour, Exhibits

Upon arrival at Kumano, proceed for a visit to the Fudenosato Kobo Museum. The museum plays a central role in presenting the history, various uses, and distinct characteristics that go into these renowned brushes, which have a variety of uses that include painting, writing, and calligraphy. Following a guided walking tour of this captivating museum and its exhibits, you are invited to try your hand at utilising the Kumano brushes yourself during an interactive drawing activity.

Interactive Drawing Activity, Hanging Scroll, Kumanofude, Shopping, Souvenirs, Brushes

On a large, white sheet of traditional Japanese paper, you can draw words or anything that inspires you. After completing your art, the paper is made into a hanging scroll that you can bring home with you to utilise as a decoration. Before you leave, some free time is made available for shopping at Kumanofude, the museum's store, which offers a selection of more than 1,500 types of fude (brushes). At the conclusion of your tour, re-board your coach and commence the approximately 45-minute drive back to the pier.

Please note: This tour involves a moderate amount of walking for approximately 0.3 miles (about 0.5 kilometres), at times over uneven surfaces, with a few steps to negotiate to get on/off the coach and 12 steps at the Fudenosato Kobo Museum. Explore the history and highlights of Hiroshima during this scenic and informative, full-day sightseeing excursion with lunch.

Hiroshima, Hiroshima Castle, Miyajima-Guchi Ferry Terminal, Ferry-Ride, Miyajima Island

Depart the pier for the scenic, approximately 45-minute drive to the Miyajima-guchi Ferry Terminal. Upon arrival, embark a ferry for the short ride to Miyajima Island. Only 12 square miles (about 31 square kilometres) in area and consisting mostly of steep, wooded hills, Miyajima is ranked as one of the three most scenic spots in the country. Itsukushima Jinja Shrine, Torii Gate, Boardwalks, Buildings, Prayer & Main Halls, Noh Theatre Stage

This UNESCO World Heritage Site, National Treasure, and Important Cultural Property is thought to date from the mid-16th century. Its dramatic, approximately 50-foot-tall (about 15.2-foot-tall), reddish-orange-coloured Torii Gate is distinctively built over water, giving it the illusion of 'floating' in the sea during high tide. Built on pillars, the shrine complex consists of multiple buildings, including a Prayer Hall and Main Hall, all of which are connected by boardwalks. There is also the Noh Theatre Stage, where plays that paid homage to the gods were once performed, and, surprisingly, many wild deer that can be seen walking around on the island.

Free Time, Independent Shopping & Browsing, Ferry-Ride, Hiroshima, Local Restaurant, Lunch

Following your tour, some free time is made available to explore the streets of the island and browse the local shops at your leisure. Afterward, return to the ferry terminal and embark your ferry for the short ride back to the Miyajima-guchi Ferry Terminal. Upon arrival, disembark the ferry, re-board your coach, and proceed for a Japanese, set-menu lunch at a local restaurant. After lunch, re-board your coach and transfer to the Hiroshima Peace Memorial Park & Museum.

Hiroshima Peace Memorial Park & Museum, Memorials, Monuments, Statues

The area where the park now lies was ground zero for the atomic bomb on August 6, 1945. Following the bombing, Peace Memorial Park was created and dedicated to those who lost their lives during and after the attack. Take a guided stroll through the park to discover its many memorials, monuments, and statues, then enter the Peace Memorial Museum, the park's main attraction. The museum consists of two buildings depicting the history of Hiroshima and day of the atomic bomb, August 6, 1945. See displays of personal belongings, compelling photographs, and stories of the sadness and suffering after the bomb. Following your visit, re-board your coach and commence the approximately 30-minute drive back to the pier.

Please note: This tour involves an extensive amount of walking for approximately 2.5 miles (about four kilometres), at times over uneven, natural, and cobblestone surfaces, with a few steps to negotiate to get on/off the coach and embark/disembark the ferry, and 60 steps at the sites visited. Depart the pier for the approximate 40-minute drive to the Dazaifu Tenmangu Shrine. Among the hundreds of Tenmangu Shrines throughout Japan, Dazaifu Tenmangu Shrine is the most important one alongside Kyoto's Kitano Tenmangu. Tenmangu Shrines are dedicated to the spirit of Sugawara Michizane, a scholar and politician of the Heian Period. Because of his great learning, Michizane has been associated with Tenjin, a Shinto deity of education, and is popular among students. A wide range of good luck charms can be purchased from the shops around the main hall. Most popular are education related charms which are supposed to help students pass exams. After the approximately 90 minutes visit, re-board the coach and drive to a local restaurant for a Japanese set-menu lunch.

From early to mid-July the shrine hosts the Yamakasa Gion Festival, the biggest festival in Fukuoka. On the last day of the Festival, seven teams from the seven neighborhoods of Hakata race carrying giant floats called "Kazariyama". Each of the floats are decorated with traditional figures and scenes and are up to 10 meters tall and weigh 1 ton. One of the huge floats is on permanent display in the shrine grounds.

Your last stop is Fukuoka Tower. It was built in 1989 for the Yokatopia Expo that was held to commemorate the 100th anniversary of municipalizing Fukuoka as a city. The tower stands 234 meters high and is Japan's tallest seaside tower. From the observation platform at 123 meters above the ground, visitors enjoy a 360 degree panoramic view that covers the city of Fukuoka to Hakata Bay.

When Kyushu National Museum was opened in 2005, it joined the Tokyo, Kyoto, and Nara National Museums to become only the fourth national museum in the country. The museum building itself is a massive blue construction that resembles a sports stadium more than an exhibition space. The museum's appearance is made even more striking by the fact that it is located in a city as small as Dazaifu. Upon first entering the building visitors will surely be impressed by the spacious entrance hall. The main exhibition is on the fourth floor and is divided into five chronological sections that span Japanese history from the Prehistoric Era to the Edo Period(1603-1868). The sections are further divided into smaller rooms that have a unifying theme. The museum has an impressive collection of artifacts that are presented in both a creative and informative fashion. FUK-K / S.A.L.T. Hidden Gems of Fukuoka: Discover Local Food and Drink

Difficulty

Price: \$359 - Duration: 3.50 hr(s)

This soul-food hop offers an immersion into Fukuoka's heart, where traditions continue to evolve, one bite and sip at a time.

The Experience

This 2.5-hour walking tour begins at a modern-classic kakuuchi \ a standing bar born from Kyushu's working-class roots. In this laid-back setting, beloved by locals for its unfussy charm, you'll rub elbows with Fukuokans while sipping sake with local seafood specialties. Weaving through the city's vibrant streets, the enticing aroma of grilled chicken guides you to your next stop. Here, expertly prepared Kyushu fowl pairs perfectly with smooth shochu, reflecting the region's fondness for rich flavors. The tour concludes at Fukuoka Craft's original taproom, unexpectedly housed in a Mexican restaurant. Local beer expert and wife of Brewmeister David Victor, leads an exclusive tasting of local brews, demonstrating how craft beer has joined sake and shochu as a favorite tippie in the city's dynamic food scene.

The Menu

The tour begins with a snack of mentaiko, Fukuoka's iconic Korean-inspired spicy pollock roe, and small plates of aji-furai, golden-fried horse mackerel fillets. This local specialty owes its popularity to Fukuoka's proximity to Matsuura port, famed for Japan's largest horse mackerel catch. Next, Kyushu's renowned chicken takes center stage. Grilled to perfection and dressed in a "secret" sauce, it's served alongside smooth local shochu. At Fukuoka Craft, local beer expert Yoko Hirano presents a curated beer flight, sharing the story of how a microbrewery in a Mexican restaurant became the birthplace of Fukuoka's leading craft brewery.

The Hosts

This culinary journey is led by two passionate experts. Ryo Ishii, a bilingual Fukuoka native with a love for food, culture, and adventure, guides guests through the city's vibrant food scene. The tour culminates with Yoko Hirano, whose global travels from Canada to Germany sparked a deep appreciation for craft beer. As the wife and drinking partner of Fukuoka Craft co-founder David Victor, Yoko has been instrumental in growing the brewery from its Mexican restaurant origins into a major regional presence. Drawing on her expertise, she'll guide guests through a carefully curated tasting flight while sharing the story of Fukuoka's craft beer evolution. Together, Ryo and Yoko offer an insider's view of Fukuoka's evolving culinary and craft drinks landscape.

Experience the rich architectural traditions of the Japanese countryside on a tour including two of the region's most picturesque villages.

Shirakawago Village

Shirakawago widely-known as one of the most scenic places in Japan, is surrounded by dramatic pine tree-covered mountains. After an approximately 90 minutes journey, arrive to Shirakawago Village. Here you'll find the unique Japanese thatched-roof farmhouses that are the center of attention. There are approximately 90 thatched farmhouses, sheds, and barns built about 200-300 years ago that were added to UNESCO'S World Heritage List in 1995. They are examples of the Gassho-zukuri style, a form of construction that resembles hands-clasped in prayer. Aesthetically pleasing, the steeply pitched roofs are extremely practical during the heavy snowstorms of the Shokawa River valley. Pitched at 60 degrees and oriented along a north-south axis, the farmhouses are able to more efficiently capture sunlight and shed weighty burdens.

Farmhouse Visit, Local Lunch

After your guided tour of the farmhouse, enjoy some free time in the village. Next, re-board the coach and your tour continues to Gokayama. Prior arrival you'll be taken to a local restaurant for a local set-menu lunch.

Gokayama Village, Local Activities

After lunch an approximately half hour drive will take you to Gokayama Washinosato.

Like Shirakawago, Gokayama earned its place as a UNESCO World Cultural Heritage Site in 1995 and boasts the same style of Gassho-zukuri pitched-roof construction. Arriving in this charming village, you'll proceed to a special site where you'll be treated to fascinating demonstrations of the art of Japanese paper making. Known as washi, the process of creation is long and involved and that often undertaken in the depth of winter. The cold weather inhibits bacteria, prevents decomposition, makes the fibers contract for a crisp feel, and provides farmers with a source of winter income.

The kozo tree, or paper mulberry, is the most commonly used fiber in making Japanese paper. The kozo branches are boiled and stripped of their outer bark, and then dried. The fibers are then boiled with lye to remove the starch, fat and tannin and any remaining impurities in the fibers are picked out by hand. The kozo is laid on a rock or board and beaten. Wet balls of pulp are mixed in a vat with water and one of two traditional methods of paper making (nagashi-zuki or tame-zuki) is employed. In both methods, pulp is scooped onto a screen and shaken to spread the fibers evenly. Nagashi-zuki (which uses neri in the vat) produces a thinner paper, while tame-zuki (which does not use neri) produces a thicker paper.

You'll have the unique opportunity to lend a hand in the process of Japanese paper-making, enjoying the camaraderie of this shared activity.

Upon conclusion of this unique experience, re-board your coach and commence the approximately 90 minute journey to the pier via the breathtaking Japanese countryside.

Please note: This tour involves a moderate to extensive amount of walking (approximately 2.2km or 1.36miles) over cobblestones and unpaved walkways, with around 20 steps at the various sites and a few to negotiate to get on/off the coach.
